

## Jawad Ammar

### Web Developer

 Ain Anoub, Lebanon

Email: [JawadAmmar000@gmail.com](mailto:JawadAmmar000@gmail.com)

Phone: +961 - 76621277

As an undergraduate student studying Computer and Communication Engineering at LIU University, my career objective is to secure an internship or entry-level position in the technology industry where I can gain hands-on experience and utilize my knowledge and skills such as Next.js, React.js, and other related technologies. I do not have any professional work experience yet, but I am a quick learner and eager to apply my knowledge and skills to real-world projects. I am excited to be part of a dynamic and innovative team, and I am committed to continuously learning and growing as a professional in this field.

## Education

Mar 2018 — May 2023

### Bachelor of Science Degree in Computer and Communication Engineering

Lebanese International University - Beirut, Lebanon

Sep 2018

### High School Degree

Cedars Cultural School - Kabr Chamoun, Lebanon

## Projects

As an ambitious and dedicated student, I have gained a strong foundation in various technologies through my coursework and personal projects. I am excited to share some of my most notable projects that demonstrate my technical skills. These projects not only showcase my technical abilities but also my ability to think creatively, solve problems and deliver results.

Here are 2 projects out of 20. You can visit my [portfolio](#) for more info.

### Next.js E-commerce Website

---

- Developed an e-commerce website using Next.js, React, Stripe and Node.js.
- Implemented features such as product listing, shopping cart, and payment checkout.
- Utilized GraphQL to handle data queries and mutations.
- Deployed the website on the Vercel hosting platform.

### React video chat App

---

- Developed a react video chat application using React.js, WebRTC, and Node.js. and utilized Redux for state management and to create a seamless user experience.
- Implemented real-time video and audio streaming functionality using WebRTC.
- Utilized the peer.js library for peer-to-peer connections.
- Incorporated user authentication and authorization using Google Firebase auth.
- Incorporated features such as room creation, join room, and group video calls.

## Technical Skills

- Quick learner, able to apply knowledge and skills to real-world projects.
- Strong foundation in Computer and Communication Engineering concepts and principles.
- Strong problem-solving and critical thinking skills.
- Experience of delivering results and completing projects on time.

## Key Skills

Front-End	Back-End	Database	Control	Hosting	Programs
<ul style="list-style-type: none"><li>• Html</li><li>• React</li><li>• JavaScript</li><li>• TypeScript</li><li>• JSON</li><li>• Tailwind</li><li>• Bootstrap</li><li>• CSS</li></ul>	<ul style="list-style-type: none"><li>• Next.js</li><li>• Node.js</li><li>• Express</li><li>• Java</li><li>• PHP</li></ul>	<ul style="list-style-type: none"><li>• MySQL</li><li>• MongoDB</li><li>• Prisma</li><li>• Firebase</li><li>• Postgres</li></ul>	<ul style="list-style-type: none"><li>• Github</li><li>• Git</li></ul>	<ul style="list-style-type: none"><li>• Vercel</li><li>• Heroku</li><li>• Netlify</li></ul>	<ul style="list-style-type: none"><li>• MS Office</li><li>• NetBeans</li><li>• XAMPP</li><li>• Visual Studio Code</li><li>• VMware</li></ul>

## Personal Skills
