Location: Aley District, Mount Lebanon Governorate, Lebanon

SUMMARY

Analytically minded individual with a bachelor's degree in computer and communication engineering, eager to advance my career in programming and committed to continuous skill development. I am actively seeking a web developer role in a growth-oriented company, and I am excited about the opportunity to join a dynamic and innovative team as I initiate my professional journey.

EXPERIENCE

Web Design and Development Intern   **July 2021 – Sep 2021**
Integrity Company

- Developed an e-commerce website using Next.js, React, Stripe and Node.js.
- Implemented features such as product listing, shopping cart, and payment checkout.
- Used Firebase to manage data queries and mutations.
- Deployed the website on the Vercel hosting platform.

EDUCATION

Bachelor of Science Degree in Computer and Communication Engineering   **Oct 2018 – Jun 2023**
Lebanese International University, Beirut, Lebanon

High School Degree   **Sep 2018**
Cedars Cultural School, Kabr Chamoun, Lebanon

PROJECTS

As an ambitious and dedicated developer, I have gained a solid foundation in various technologies through personal projects. These projects not only showcase my technical abilities but also my ability to think creatively, solve problems and deliver results.

Here are 2 projects out of 20 and for a comprehensive overview of my work, please visit my portfolio.

Project: Meetly - Innovative Video Chat Application

- Developed a user-friendly interface using Next.js for high-quality video and audio communication, providing a truly immersive experience.
- Implemented secure authentication and user management with NextAuth, ensuring privacy and security for all users.
- Integrated WebRTC for real-time video and audio streaming, supporting multiple participants in a single video chat room.
- Utilized Socket.io for real-time communication and event handling, enabling seamless interaction between users.
- Designed a responsive and visually appealing UI with Tailwind CSS, ensuring a consistent user experience across various devices.
- Managed state efficiently with Redux, enabling smooth and reliable performance of the application.
- Built robust backend services and handled database interactions using Prisma, ensuring data integrity and optimal performance.
- Introduced advanced features:
  - Participants History for easy reconnection.
  - Attendance Calculator for seamless tracking.
  - Record Meetings for convenient review and reference.
  - Reminders to keep users organized and on top of their schedules.

Lottery Application

- Developed a lottery app using Next.js and solidity smart contract to manage the lottery rules, such as ticket purchases, drawing, winner selection and ticket price tracking.
- Integrate MetaMask wallet for secure cryptocurrency transactions.
- Implement communication between the Next.js frontend and the smart contract using web3.js and ethers.js.
- Deployed smart contracts on the chosen blockchain network.

HARD SKILLS

- JavaScript
- TypeScript
- Java
- PHP
- JSON
- Next.Js
- Node.js
- Express.Js
- React.Js
- HTML
- CSS
- Bootstrap
- Tailwindcss
- Git & GitHub
- MongoDB
- MySQL
- Prisma
- Firebase
- Vercel

SOFT SKILLS

- Good verbal and written communication skills.
- Motivated and always willing to learn new things.
- Independent and self-sufficient in handling tasks.
- Collaborative and able to work in a team driven environment.

LANGUAGES

Arabic (Native**).**
English (Advanced**).**

HOBBIES

- Artificial Intelligence.
- Video Games.
- Cooking middle eastern cuisine.
- Exercising.
